Some of the benefits of briefcase:

Access all your files 100% securely using PC/Mac, Tablet & Smartphones.

Work on the same files as your colleagues. See who changed what. Hot desk easily.

Give every employee their own private space and also create Team Folders that groups of employees can work on together.

Share files easily. Your business will get its own web portal.

Custom brand it with your own logo and content.

Full FTP, SFTP access to everything on your Cloud Briefcase.

We don't limit your upload or download speeds at all!

Backup your Servers/Desktops with unlimited storage using realtime or scheduled backups.

Our other services include: IT Support, Hosted Exchange Email, Hosted Servers, Office365, IP Telephony & Much more!

We only use UK based servers so are subject to full UK Data Protection (unlike some of the 'Big' Ones!!)
